

Now You Can Ride And Not Get Lost

Expanded bus service to El Camino College, Crenshaw and Redondo Beach Boulevards, will be provided by the MTA with the opening of fall semester Sept. 11.

The college service will operate Monday through Saturday on the MTA's Redondo Beach-Crenshaw Line 101 as part of an overall improvement program on all MTA lines in this area.

A new guide to MTA service in the Centinela Valley and South Bay area was released today by the Metropolitan Transit Authority.

The new, "Fast, Easy Way" guide was published as a prelude to the service improvements, regroupings and transfer benefits which will become effective on MTA lines operating in the area beginning September 10.

Among the major improvements will be the extension of the Hawthorne-Inglewood-Los Angeles Line 5 from Hawthorne Blvd. and Broadway, Hawthorne, 3.4-miles south to Hawthorne Blvd. and Artesia St. (South Bay Shopping Center) and the extension of the Crenshaw-Vine St. Line 85 from Crenshaw Blvd and Manchester Ave. 3 miles south to Crenshaw and El Segundo Blvd.

Direct through service to and from various other areas in the South Bay and Centinela Valley area along with later evening service are other features of the expanded program.

In addition, duplicate fares now required between the former Cross Town lines in the South Bay and Centinela Valley and regular MTA lines will be eliminated with the establishment of universal transfer privileges and eliminating duplicate fares, a 22 1/2-cent token fare (25-cents cash)

has been established for all lines of the former Cross Town system.

The new guide contains an extensive map to aid travelers in their journeys on MTA lines throughout the Centinela Valley and South Bay area.

Free copies of the guide, time tables and other information may be obtained by writing to 1060 South Broadway, Los Angeles 15, or by telephoning the MTA at OSborne 5-4361 or Richmond 7-4455.

Volunteers Needed for Aid Society

Travelers Aid Society is now recruiting volunteers for once-a-week four-hour watches at Los Angeles' new multi-million dollar jet-age air terminal, according to Eleanor McCreery, staff worker in charge of volunteers.

The society, a Community Chest service, stations workers at bus, railway, and air terminals. Last year the Los Angeles agency helped 60,707 confused, lost, or otherwise distressed travelers — 23,230 at the airport.

Mrs. McCreery, who can be reached at MA 5-2501, said "our requirements for volunteers are simple. They must be intelligent people with patience, tolerance, and sympathy for others in trouble."

When all six satellites of the new terminal are in operation, Travelers Aid will need more than 100 volunteers. Previously 20 covered all necessary posts.

Each volunteer worker is asked to take one four hour watch each week, starting at 7 or 11 a.m. or 3 or 7 p.m., as the volunteer finds it most convenient.

TWO EL CAMINO COEDS, Marie Gannier of Manhattan Beach and Karen Sake of Inglewood (right), get an assist from MTA operator Donald W. Houghtaling of Los Angeles as they check the new schedule and routing pattern for the line. Expanded service to El Camino will begin, Sept. 11.

Space Technology Lab Opens Soon

Approximately 2,000 employees of Space Technology Laboratories, Inc., will report for work at the new Space Technology Center, Space Park, Redondo Beach, during November and December, according to F. W. Hesse, vice president for administration and finance.

They will be the first of more than 5,000 scheduled to occupy the 110-acre complex at Compton and Aviation boulevards.

Some 1,300 STL personnel will be moved in the November increment and will occupy offices and laboratories in two engineering research buildings, scheduled for completion Nov. 1, are the first to be finished in the construction program which was begun last December by Twait's-Wittenberg Company, contractors for STL.

A third building, the five-story engineering office structure designated Building E, will be ready in December and occupied by approximately 600 personnel.

The fourth building currently under construction, a specially-designed manufacturing structure for building

and testing space vehicles, is scheduled for completion in January. The center will ultimately comprise 13 buildings.

A clean, contemporary design is stressed throughout the new site structures. The research buildings and the five-story engineering building will have floor-to-ceiling walls of glass, with a glass sunshade overhang.

The structures feature "double-loaded" type offices, in which entrance from the hall is first to a secretarial bay, and then to six offices surrounding the bay. Minimum size office at the complex will be 120 square feet.

The steel-frame and concrete manufacturing building, Building M, will house specially-designed "clean rooms" in which temperature, humidity, barometric pressure and dust particle content will be closely controlled for critical work on spacecraft.

Building M will be the scene of fabrication and test work on the Orbiting Geophysical Observatory (OGO) for which STL is under contract to the National Aeronautics and Space Administration.

Loan Program Use Increases

Activity in the GI home loan guaranty program showed continuing increase during June, Mort Webster, manager of VA's Los Angeles Regional Office reported today.

Requests for appraisal received during the month totaled 2,990. This was 540, or 22 percent, above May's total of 2,450.

The largest increase was in requests for appraisal of proposed units—2,271 received in June, compared to 1,541 in May. Requests for appraisal of existing units totaled 719 in June, compared to 909 in May.

Applications for guaranty of home loans totaled 1,382 in June. The total for May was 1,201.

A subsidiary of Thompson Ramo Wooldridge Inc., STL also provides system engineering and technical direction for the Atlas, Titan and Minuteman ICBM programs under contract to the U.S. Air Force, and system engineering services for the Advent communication satellite program under a contract with the U.S. Army Advent Management Agency.

V. G. Nielsen Is Appointed

V. G. Nielsen of Rolling Hills has been elected to the Board of Trustees of Aerospace Corporation, Board Chairman William C. Foster announced recently.

Aerospace Corporation is a non-profit firm, organized in the public interest to provide objective leadership in the advancement of space science and technology for the government.

During World War II, while an assistant professor and assistant dean of the Harvard Business School, Nielsen served as a consultant to the U. S. Air Force. He holds a Ph.D. degree from the University of Wisconsin and a M.B.A. degree from the Harvard Graduate School of Business.

Chilton Receives Appointment

Edward J. Horkey, president of Space Equipment Corporation, announced that Robert C. Chilton, who has been associated with the aircraft and missile industries for more than 23 years, will join the Corporation as secretary and contracts administrator. He will assume his new duties immediately.

Chilton lives at 2488 Via Campesina, Palos Verdes Estates.

From 1952 to 1957, Chilton, as Lt. Col. (US Air Force Reserve), was Chief of the F-84/F-105 Weapons System Project Office, Headquarters, Air Material Command, Wright-Patterson AFB. Prior to this, he was employed by North American Aviation, Inc., as engineering test pilot, ultimately advancing to senior engineering test pilot. He has flown 79 different aircraft types.

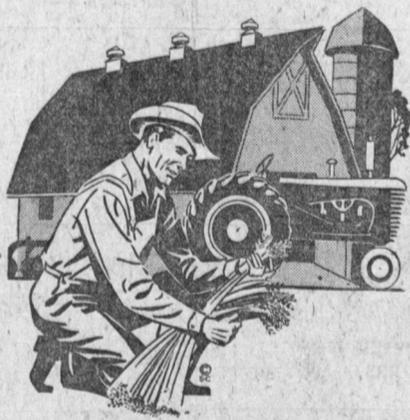

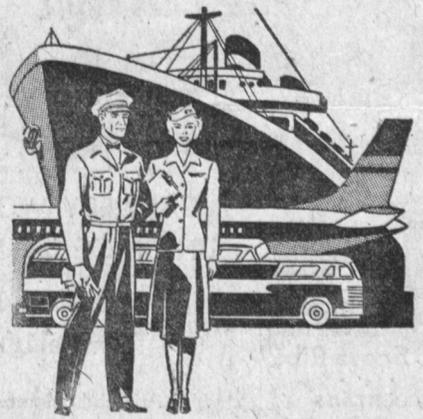

Cubs Receive Merit Awards

Cubsouts of Pack 7 recently visited Los Angeles International Airport. High spot of the tour was the inspection of an American Airlines 707 jet airliner. Twenty-six boys made the trip, and were master, Paul Danford, denmothers, and members of the parents committee.

The following awards were made by Wayne Smith, awards chairman, at the last den meeting: Richard Holloway, Bobcat pin; Patrick Pean, Denner badge; Kenneth Rich, Lion badge and gold arrow; Steve Carrington, Wolf badge, gold arrow, and silver arrow; Paul Smith, silver arrow.

For additional information, please contact HOMEL, GOREE or GIROD, CABLE HOUSE BOWL, HAWTHORNE AT SEPULVEDA, TORRANCE. THE NUMBER IS Frontier 8-2265.

Cederlof Will Attend Bank School

Charles T. Cederlof, manager of the newly-opened Del Amo office of Glendale Federal Savings and Loan Association, will attend the Savings and Loan School for Executive Development at the University of Washington, September 3 to 15.

A native of San Pedro, Cederlof attended public schools there and is a graduate of Long Beach State College, where he majored in business administration.

He entered the savings and loan business in 1956 as a teller in Glendale Federal's San Pedro office and the following year was advanced to manager of the Lomita branch office, where he has served residents of this area until the Del Amo office was opened last July at 3832 Sepulveda Blvd.

He has been Lomita chairman for the March of Dimes, president of the Lomita Chamber of Commerce, treasurer of the Lions, and active in the YMCA and Masons. Mr. and Mrs. Cederlof have two sons, Gregory, two, and Eric, four months.

Cederlof has announced that the association is continuing its "Summertime Living" savings program due to increased business activity.

"The popularity of the wide variety of free gifts for better indoor and outdoor summertime living has been tremendous, and our business activity has increased accordingly," Cederlof said.
